

Electronic Systems Inc. Announces it has won the SEA Award for Quality at APEX 2009

APEX 2009

SIOUX FALLS, S.D.--(BUSINESS WIRE)--Electronic Systems, Inc. is pleased to announce that it has won the Customer Service Excellence Award for Quality in the mid size company category, presented at APEX 2009 in Las Vegas March 30, 2009.

The 2009 Service Excellence Awards program is sponsored by *Circuits Assembly*, the leading trade publication for the Electronics Assembly industry. Companies that received the highest customer service ratings, as judged by their own customers, received the awards during a ceremony March 30 at the Apex trade show in Las Vegas, NV.

This survey has been in existence for 17 years and Electronic Systems has won multiple times in the past for "Dependability, Value for Price, On Time Delivery and Quality". The area that the company won recognition for this year is Quality.

"We are extremely pleased to be recognized in the category of Quality by our customers. This indicates a significant degree of success in meeting the most important of all customer concerns, which is, achieving the customer's requirements," said Leo Reynolds, Founder.

Gary Larson, President said, "We've always nurtured a culture of quality as a basic principle of the Electronic Manufacturing Services (EMS) business that we are in." Mr. Larson continued, "We see this award as a direct reflection of our commitment to providing our customers with the highest quality product with the least amount of waste."

Electronic Systems, Inc. (www.electroniccsi.com) is headquartered in Sioux Falls, SD and operates three facilities there. The company offers complete EMS (Electronic Manufacturing Services) for PCB assembly through final system-level assemblies (Box Build) including supply chain management through order fulfillment. Customers include OEM's (original equipment manufacturers) in the industrial, electrical power, medical, business equipment, consumer product, defense and telecommunications sectors. The company is U.L. compliant as well as ISO 9001:2000 and ISO 13485:2003 (Medical) registered and ITAR registered.
